

## SCALEAPP

SCALEAPP: MANAGING THE SCALE WITH YOUR SMARTPHONE OR TABLET

ScaleApp allows you to connect with the weighing system, via **Bluetooth** or **WiFi**, giving a real-time reading of the weight and performing all of the functions required to use the system (zero, tare, management, saving and sharing weighs).

The best solution  
for advanced industrial  
applications

## BENEFITS

- Remote weighing operations, without touching the scale, for use in harsh industrial environments or unreachable weighing systems (dynamometers, wall indicators, forks, etc.).
- Net, gross and tare weight reading.
- Weight zeroing, semi-automatic tare, manual tare and tare database (up to 6).
- Entering texts/identification codes for each weigh.
- Saving weighs and on-line sharing in the form of editable text.
- Management of approved scales.
- Monitoring the weighing system, with the possibility of connecting to a different system at a time.
- Communication with the scale through INTERNET via VPN connection to the company network, and to the scale connected to the network via WiFi module.

## MINIMUM REQUIREMENTS

- Display 3.2" or greater.
- Minimum Android version supported: "Jelly Bean".
- WIFI or Bluetooth connection for communication with the scale.
- ScaleApp can be downloaded from the Playstore at the link below:
